Package	Dedicated Camera Op	Camera Specs	Interchangeable Lenses (35mm Eq)	Number of Batteries @Flight Time	Comments
DJI Inspire 3 X9 Air Camera System	YES	35MP Full Frame Sensor 8K 14 bit Dual Native ISO 14+ Stops Dynamic Range ProRes RAW/CDNG 120FPS @ 4K	12mm(2.8) 16mm(2.8) 24mm(2.8) 35mm(2.8) 44mm(1.8)	5 @ 20min	The ultimate, fully integrated drone, camera and gimbal system. Fast and agile, amazing low light with dual native ISO, powerful camera with small gear and crew footprint.
DJI Inspire 2 X7 Camera System	YES	24MP Super 35 Sensor 6K 14bit 14 Stops Dynamic Range ProRes RAW / CDNG 120FPS @ 2K	9mm(2.8) 16mm(2.8) 24mm(2.8) 35mm(2.8) 50mm(2.8)	10 @ 15min	Best Balance of Efficiency/Value/Performance. Cuts with RED and Alexa Mini very well. Good Low Light performance very esthetically pleasing image with no Low Pass Filter.
DJI Inspire 2 X5S Camera System	YES	21MP Micro 4/3 Sensor 4K 10bit 12.8 Stops Dynamic Range ProRes RAW / CDNG 120FPS@4k	15mm(2.0) 18mm(1.7) 21mm(1.8) 31mm(1.8) 56mm(1.8)	10 @ 15min	Camera sensor is a Mirrorless DSLR and has a better image then Mavics and Phantoms. Great for budget minded productions that still want a better camera and interchangeable lens options.
DJI Mavic 3 Cine	NO	20MP Micro 4/3 Sensor 5.1K 10bit 12.8 Stops Dynamic Range ProRes 422 120FPS@4K	Fixed 24mm 70mm	4 @ 35min	Most cost effective package. The Mavic is small inconspicuous and only takes one person to operate. It has a huge Micro 4/3 sensor in a small form factor. It has a quick setup time and is great for smaller run and gun situations.
